Adoratrices Hostel is a catholic hostel for all those single ladies of age between 18 and 30, who come to London to refresh their English, do studies in English or for work experience, There is a big opportunity for all those who desire to grow close to Christ and his Church to practice faith and share their faith,

Let us make use of one's life here in this world as a lighted candle to light-up the world by lighting up our surroundings,

Faith gives great significance and meaning to our lives, in our short span of life, the shortest time you are here in Adoratrices hostel make it significant,

Indeed faith is a gift and grace from God, like the sun shine and rain it falls on everyone, only we need to feel the warmth of the shine of it, and coolness of its whispering fall on us.

Any time we can be grabbed by that ever new and ancient beauty of God in our hearts and in the situations of our lives the unchanging music of our natural world, let us not ignore nor block it with our ear-phones. Listen to yourself; look into the face of the human beings that flow in these cities and towns.

All who have no faith you may discover it, and you have faith may you grow stronger and confident, in Christ Jesus.
